Thank you to all residents of KKH I and II that took the time to participate in this years festivities! The Energy, creativity, and time taken to decorate your homes were all outstanding this year and we would of love to have chosen all participants. Please enjoy the decorations and we ask that all Christmas lights and decorations are removed completely by 6 FEB 2004. Again Thank you all for your participation!

DISPOSAL OF PROPANE GAS TANKS

According to a letter sent out to all branches of the military services from the City & County of Honolulu, Department of Environmental Services on 12 December 2003, "Two recent explosions at H-POWER have been traced to a 5-gallon propane tanks that escaped detection and entered the primary shredder. Although the shredder enclosure was designed to contain and direct the force of an explosion upward through replaceable panels, when the force is great enough, as it was in these two instances, the access doors are also blown out. Not only does the plant have to be shut down for repairs, diverting all refuse to the landfill, but the flying doors pose a grave danger to plant employees."

Please be advised that propane tanks **CANNOT be transported** and **must be disposed of properly**. Propane tanks **ARE NOT TO BE PLACED** in or around dumpsters, full or otherwise. If propane tanks are detected in any of the dumpsters, the dumpster will not be emptied until the tanks are removed. There are three options for disposing of your propane tanks:

1. Take the tank(s) to **Air Liquide America Corporation (845-9021)** at 306 Kalihi Street (between Nimitz Highway and Republican Street). There is a \$15.00 disposal charge. They are open Mondays thru Fridays, 0730-1600.
2. Take the tank(s) to the **Waipahu Convenience Center on Waipahu Depot Road**. This is a free service. They are open seven (7) days a week, 0700-1800.
3. Or Bring the tank(s) down to the Housing Office and our Coast Guard personnel will gladly dispose of the tanks.
